DIY Installation Guide

It is designed for front installation. It is simple to install by yourself without help from professional worker.

INSTALLATION WAY:

STEP 1

Take a bottom rail with a super magnetic system.

STEP 2

Combine the 2 side rail of screen in the right hole.

STEP 3

Combine the side roller of screen together with other side of rail.

STEP 4

Screw at the top side of rail and roller to strengthen.

STEP 5

Install to windows and screw in 4 hole in front of insect frame. Close the hole with buffer to get a better shape.

Silent Retractable Screen System

Daily Care

Beat the dust off lightly with a duster, and then wipe the screen using a sponge.

For Heavy Dirt

Wipe with sponge which is soaked in mild detergent. Wipe again with clean water.

Difference Our Product with Other Brand

Our Product

Smooth and silent when the screen is rolling up.

Other Brands

The screen will roll up faster and hardly, that's unsafe to use.

Our Product

It can be lock up easily and smoothly with our super magnetic system.

Other Brands

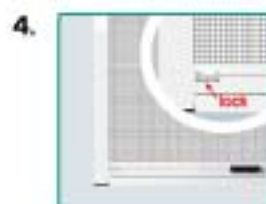

It can't lock up safely, there will be unsecure when the screen is suddenly pull up.

It is tight and firm. It would not fall off when you touch the screen.

Unright and loose. It is more easier to damage when you touch the screen.

It can be locked stability at all times with lock functionality.

It was easily to bounce with lock-free functionality.
