OSAY Kitchen

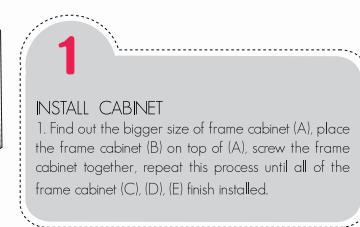

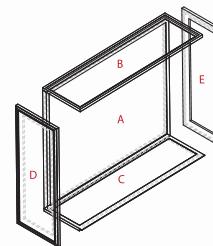

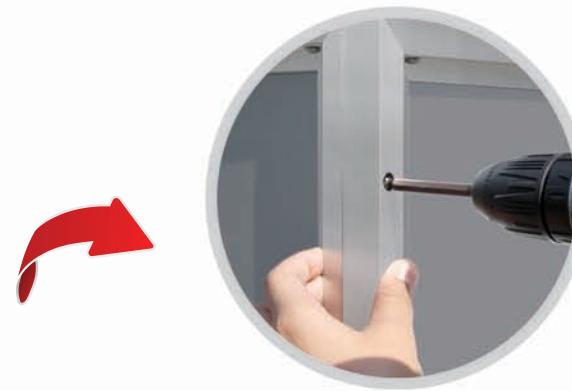

OSAY KITCHEN

Osay Kitchen is Osay's newly developed aluminium products that can complement your home design. It is simple for assemble, that why everyone can become an expert. The wall cabinet complement with panel system, specially designed for the place is not enough space and it will be easy to hang up on the wall.

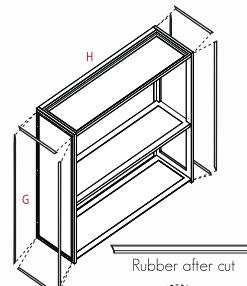

* Artwork Refer Page 20

Install it as easy as
1, 2, 3, 4,

The Rail can support with 100kg of weight. You can hang on the wall, consider how much space you have available in your house.

The Shelf can adjustable 3 different position, adapt to suit your needs

4

SECURE THE SUSPENSION RAIL

5. Draw the horizontal line at your mark, use a level to ensure a straight and level line for hanging wall cabinet. Secure the suspension rail to the studs, aligning the bottom edge of the rail with the level line marked on the wall. Shim the suspension rail until it is straight. Should the end of the rail fall between studs, secure it to the wall with a heavy duty anchor. You've completed.

2

PUT THE SHELVES IN PLACE

2. Insert four supports per shelf into the predrilled holes inside each cabinet, then rest the shelves on top of them. Think about what you need to store, and place the shelves to make best use of the space. You can move the supports and the shelves anytime you wish.

3

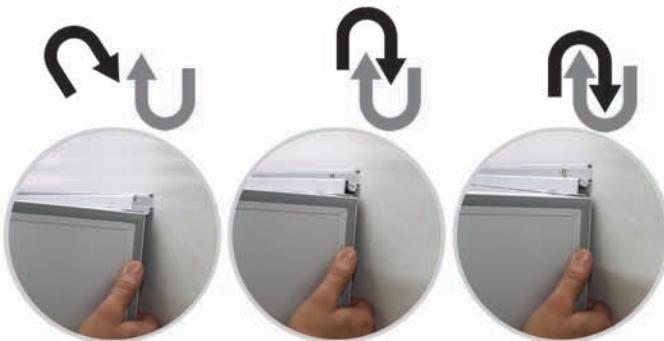

INSTALL THE RUBBER

3. After finish installed the wall cabinet, Cut rubber (G) become 4 parts and then Install the rubber (G) at (D) and (E) part.

FINISH THE WALL CABINET BODY

4. After finish installed the rubber (G), place the rail (H) on top of the frame cabinet (B), adjust the rail to the center of the wall cabinet, then screw it.

UNIQUE RAIL

SIZE OF HOLLOW

Gap between Cabinet and Wall

- If you have a gap between the side of the cabinet and an end wall or appliance, choose the aluminium hollow bar to close it. Slip the hollow in place and attach it with drywall screws. We have 7 size for you to choose.

SUPPORT 100KG

* Terms and condition apply

We know that wall cabinet have to handle a lot. That's why we load every Cabinet with 100kg of weight.

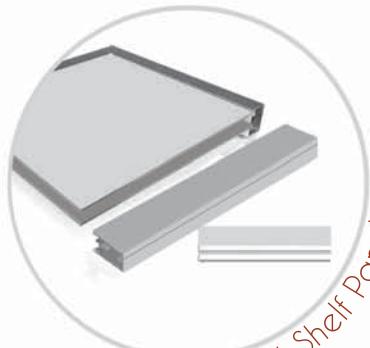

Width (mm)
